

## MINUTES FROM THE QA/QC MEETING BETWEEN SHMÚ AND ČHMÚ

**30.-31. 5. 2023**

*The meeting took place in the building of CPP Praha-Komořany*

*Participation List is attached.*

This meeting followed the meeting of the National Inventory Systems of Central European countries (Austria, Hungary, Poland, the Czech Republic and the Slovak Republic) held in 2019 in Warsaw. The current QA/QC meeting was held within the framework of the bilateral agreement on mutual cooperation no. 83-100-2015 between SHMÚ and ČHMÚ. The contract, report and photos can be accessed on the website <https://oeab.shmu.sk/o-nas/dokumenty.html/>.

Short agenda is introduced here:

1. *Introduction and presentation of SK and CZ NISs*
2. *Projections and emissions modelling in energy and IPPU sectors, TIMES model outcomes, challenges and limitations*
3. *Emission inventories in households, outcomes of the statistical survey on heating and energy use*
4. *Fugitive emissions from oil and natural gas in Czech Republic and comparison with the Slovak inventory*
5. *Agriculture is implementing IPCC 2019 Refinements, changes and improvements*
6. *Transport sector introduced new methodology for emissions and energy allocation according to NACE classification*
7. *Discussion on iron and steel production, comparison of approaches in Slovak and Czech inventories, interconnection to energy balance*
8. *Plans for 2024 reporting – no review in 2023, in-country UNFCCC review in 2024 in Slovak and Czech NISs, reporting under the ETF on 15. April 2024, discussion to the new reporting tool of the EEA (REPORTNET 3)*
9. *QA/QC in Czech Republic is connected with the 3-years projects*

Conclusion and way forward:

*Plans for the next meeting – in the same way as before, first planning in the beginning of the year 2024, invitation of other Central European countries, including support for Ukraine. Topics can be emission projections in IPPU, energy and transport, waste inventory.*
