Overview a nová kapitola

- Kvôli prehľadnosti ostáva overview pôvodné, nadpisy sú zrušené

Category-specific QA/QC and Verification Process

QA/QC procedures in the Waste sector are linked with the QA/QC plans for the National Inventory System at the sectoral level and follow basic rules and activities of QA/QC as defined in IPCC 2006 GL. The QC checks (e.g. consistency check between CRT data and national statistics) were done during the CRT and NID compilation, General QC questionnaire was filled and archived by QA/QC manager.

- V príslušných podkapitolách je potrebné odkazovať sa teda na časť, napr.:

7.4.5. Category-specific QA/QC and Verification

Description of the QA/QC system and verification of emissions inventory in the categories MSW CRT 5.C.1.a(b).i (Biogenic and Non-Biogenic) and Non-MSW CRT 5.C.1.a(b).ii (Biogenic and Non-Biogenic) of the Waste sector is provided in **Chapter 7.1.** in the part [Category-Specific QA/QC and Verification Process](#).

- Vznikla nová kapitola:

7.4.4. Description of Any Flexibility Applied
